JS 5 Exercises

Oct 18th

Exercise 1 (RegEx)

Play and win this game https://regexone.com/references/javascript

Exercise 2 (Frameworks)

- o Explore the JS client side frameworks (React, Angular, Vue, … etc).
- o Select one of them and get started into installing it to your website
- o Show one just one example of using it on your website (for example create one component using react, or use Vue.js to generate a list of html elements
- o BONUS: Restructure your whole website to adapt one of the frameworks.
